

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

Introduction to the Faculty of Islamic Knowledge and Thought, University of Tehran

The Role of the Faculty of Islamic Knowledge and Thought in Promoting University Culture

The Strategic Position of the Faculty of Islamic Knowledge at the University of Tehran

The Importance of Islamic Studies Courses in the Higher Education System

Teaching Islamic Studies at this faculty is not merely the transmission of religious knowledge; it is an opportunity to foster critical thinking, deepen the understanding of human values, and provide academic responses to intellectual challenges faced by the younger generation. This education plays a key role in strengthening students' moral and identity foundations.

As the primary institution responsible for teaching Islamic Studies at the largest and most prestigious university in the country, the Faculty of Islamic Knowledge plays a strategic role in the intellectual, religious, and moral development of students. Since all undergraduate students from various disciplines are among its audience, the faculty maintains the broadest educational engagement with the student body and thus serves as one of the key cultural and identity-building arms of the University of Tehran.
